For ESG, Risk & Compliance Professionals

Climate Risk Disclosure Compliance Training Program
A comprehensive program covering ISSB IFRS S2, TCFD, ESRS under CSRD, and SEC climate disclosure rules. Learn to identify climate risks and opportunities, manage emissions data, and integrate disclosures into corporate strategy.

Welcome to Strategy&Ops and Our Sustainability Training Institute

- Strategy&Ops Consultancy – **global** and **multidisciplinary** team of 120+ experts in various fields of sustainability
- Helping individuals & organizations turn sustainability goals into real actions
- Our Institute - Flexible learning: short online courses, workshops, tailored programs
- Focus on practical skills for Net Zero, ESG, Circular Economy, and more

Who Should Join Our Net Zero Courses?

- Sustainability managers and coordinators
- Facilities, operations, and energy managers
- Policy makers and government officers
- Corporate leaders aiming to integrate Net Zero into strategy
- Anyone wanting practical skills to reduce emissions

Key Courses & Unique Focus

- **Energy & Carbon Essentials for Facility Managers** – Reduce energy use, costs, and emissions in facilities
- **Energy Transition & Sustainable Practices** – Plan and manage the shift to cleaner energy sources
- **Carbon Accounting & Decarbonisation Strategies** – Measure emissions, set targets, and cut carbon footprint
- **Climate Risk Disclosure Compliance** – Meet reporting standards and manage climate risks
- **Circular Economy Strategies** – Minimize waste, extend product life cycles, and close material loops

Course Objectives & Learning Outcomes

- Understand carbon accounting and Net Zero strategies
- Learn to measure and reduce your organisation's carbon footprint
- Develop a roadmap for energy transition and sustainable practices
- Gain tools to engage teams and stakeholders in climate action
- Create a practical action plan ready to implement

Course Structure & Delivery

- Duration: 3–9 hours (split into modules)
- Delivery Mode: 100% online, blended, or in-person workshops
- Tools & Methods: case studies, interactive exercises, AR/VR options
- Assessments: quizzes, project tasks, and action plan development
- Support: trainer Q&A sessions and post-course resources

Take the Next Step

- Courses available for individuals & teams, tailed to your needs
- Ideal for embedding Net Zero goals into daily operations
- Visit our website for schedule & registration at <https://strategyandops.net/sustainability-training-institute/>
- Let's work together to make Net Zero happen faster
